Herbs & Flowers

Ever since ancient times, flowers and plants, trees and fruits have been used to convey something to another in a subtle way.
A form of non-verbal communication as written.
One of the most famous examples is the red rose, as a sign that you love the recipient. However, there are countless other flowers and other crops that represent an equally great symbolic value.
In the Middle Ages, but also in periods long before that, a lot of value was attached to symbolism. In the present time, partly due to modern means of communication, which are often much more impersonal, the use of that symbolism is threatened to be lost.

So here's the secret for all the jewelry of MY iMenso..
Each precious piece has its own personality just as the flowers.
So let's find out how you want to shine,
just like a flower radiates power and symbolism.
Feel the connection..

MY iMenso
exclusively 925 silver

The modern version of the Medallion

The essence of jewelry is to emphasize the beauty of a woman and to make her feel confident. MY iMenso has been developed within that spirit.

Every woman, regardless age or type, can create with MY iMenso her own piece of jewelry which enhances her beauty in a personal and authentic way. It is a way of self-expression. The designs of MY iMenso can be delicate or bold, colorful or subdued, intricate and expensive or economical and simple: Each carrying their own meaning, projecting a message about this woman to the world. MY iMenso is a reflection of a woman's personality.

The designer of iMenso was fascinated by the concept of personalizing jewelry. He sought a concept which would present the utmost way for a woman to express herself in the most personal way, with a piece of jewelry which keeps its value. He developed a pendant which possessed these qualities, and the MY iMenso medallion in its present design was born.

The medallion can be personalized in a limitless way, simply by opening it, adding and combining the Insignia's. It can be worn on both sides and one can choose from a numerous collection of Insignia's, stones and other pre-selected designs, including possibilities for personal engravings, images and names. The concept of wearing the medallion on both sides enables the owner to keep very personal messages close to her heart. Sometimes the engraving is such a personal term of endearment that the owner wants to keep it to herself. Due to the double sided concept this is made possible.

The brand name iMenso is derived from the Italian word 'immenso', which not only means enormous and gigantic, but also limitless and immeasurable. The brand name 'MY IMenso' was created. This name is alluring in every language and fits the medallion perfectly. The combinations with the Insignia's, jivers, necklaces etc. are immeasurable and limitless. The 'MY' in the brand name, refers to the personal and authentic character of this versatile piece of jewelry.

** Instructions for Opening and Closing Carezza Jewelry**

Welcome to Carezza!
Our jewelry features a unique design when it comes to opening and closing the lockets and earrings.
Follow these simple steps for effortless usage:

Opening:
1. Place your thumb on the pin (-1-) and your index finger on the locking tab (-2-).
2. Push the pin downwards (this relaxes the clasp) while gently opening the locking tab with your index finger.
3. If you only pull the locking tab, the clasp will also open, but it might be a bit more difficult.

Placing the Stone:
1. Ensure that the size of the pin matches the stone you want to place.
2. The pin has a notch that should securely align with the locking tab.

Closing:
1. Press firmly on the locking tab to close it. Make sure the clasp is securely fastened.
2. Check the clasp by gently pulling the locking tab with your nail.
3. If the clasp opens too easily, refer to "Adjusting the Clasp."

Adjusting the Clasp:
1. Open the clasp and remove the stone if present.
2. Gently push pin (-3-) in the direction of the indicated arrow.
Each bend represents one-tenth of a millimeter.
3. This creates more tension between the pin and the locking tab when it closes.
4. We recommend checking your clasp daily, even if you're not changing the stones.

Note:
Padding rings are not available for Carezza. If the stone feels slightly loose, this technically has no consequences.

Thank you for choosing Carezza.
We hope your jewelry brings you joy!
